SCOPE AND CONTENT NOTE

The Linda Boyd Lawhon Genealogical Collection consists of files compiled by Linda Boyd Lawhon in the course of doing genealogical research for her own family lines and for others. The collection contains 18 cubic feet of materials and is organized alphabetically by surname or topic. The collection retains the order established by professional genealogists Jeri J. Steele and William (Bill) B. Dow, Jr., who inventoried and arranged the collection after Linda Lawhon’s death.

Key surnames included in the research are Alnutt, Boyd, Carrmuth, Conway, Dickinson, Douglas, Downman, Dykes, Ellis, Gosnell, Hale, Haynes, Huggins, Lawhon, Mitchell, McCall, McCown, Murray, Nichols, O’Dell, Roseberry, Stephens, Towson, and Witherspoon. Lawhon included photographs, genealogical charts, birth and death certificates, Bible records, census records, wills, tax lists, obituaries, correspondence, and hand-written notes in her research. The collection includes research on families from all over the United States as well as the United Kingdom, but some of the chief areas of interest include Tennessee, Virginia, Kentucky, and North Carolina, as well as Texas, Missouri, Pennsylvania, and Illinois.

The inventory done by Steele and Dow is indexed on a compact disc in .xls (Microsoft Excel) and .PDF (Adobe Acrobat) format; this disc is located in Box 1, Folder 1. The folder also includes a printed copy of all surnames mentioned and their box location. Note that more surnames are listed in the printed materials than in the Excel spreadsheet. All related photographs are located at the end of each box.

The Linda Boyd Lawhon Genealogical Collection was a gift from Dwain Lawhon, Richardson, Texas. There are no restrictions on the use of the collection.
